

APPLICATION

Type Y trims are used to create junction details between metal suspended ceiling systems and adjacent areas of plasterboard. The horizontal web of the shadow-gap designs can be factory slotted to form an air vent if required. Curved trims manufactured from composite sections to reproduce type Y trims are available

PRODUCT INFORMATION

Supplied in 3000mm lengths, extruded from architectural grade aluminium alloy to BS 1474. Pre-punched with diagonal fixing slots and holes suitable for fixing by drywall screws. The standard finishes are either white polyester powder coating to RAL 9010, 20% Gloss, or chromate etch primer suitable for direct over-painting on site after fixing. Non-standard lengths, factory curving and alternative factory applied finishes are available to special order. Cleats for straight joints, internal or external corners.
