System 25 is QIC Partitions leading single glazed system which can accommodate various width of applied banding horizontal and vertical to create the overall aesthetic

This system offers excellent acoustic performance and enhanced line loading. System 25 creates a contemporary aesthetic in any environment.

System Specification

System 25 is a Single Glazed system which accommodates glass up to 14.8mm with enhanced line loading capability. This system can also integrate with all QIC Partition systems both glazed and solid. There is an optional deflection head channel with built in tolerance of +/- 25mm. In addition, Banded Glazing applied bars can create a stunning effect to suit desired interiors. All sections are available in a wide range of colours and special finishes.
